# designworks:tiles

## About US

Designworks Tiles is the commercial division of Original Style Ltd, a British tile manufacturer and distributor with over 30 years experience in the ceramics industry.

Now the leading UK distributor of design-led, European manufactured swimming pool and spa mosaics, our mosaics grace the pools and spas or music legends, sports stars, business tycoons, country clubs and luxury hotels

We have a loyal customer base of quality contractors who depend on us for superior tiling solutions and dedicated customer service.

## Why does my pool look blue?

Look at a glass of water and it is clear and colourless. And yet the water in pools and the sea appear to be shades of blue. Why?

It's all about the light. Sunlight is a spectrum of colours, through the rainbow from red to violet. When the light hits an object, some of the colours will be absorbed and some scattered. For example, an apple looks red because it absorbs all the other colours in the light and scatters only red. Water absorbs different wavelengths of sunlight to different degrees, with the longest wavelengths with the lowest energy being absorbed first. Red is the quickest to be absorbed, then orange then yellow. The blue end of the spectrum travels further through water before being absorbed. The colours disappear underwater in the same order.

The sea seems to be blue because it absorbs all the other colours and only the blue light is scattered or reflected. A glass of water is too small an amount for the reflection of the blue light to be obvious, but when you fill a white bath with water you will see a blue tint. Clean water always appears blue, and deeper water appears more deeply blue as more of the other colours of the spectrum are absorbed.

At what depth underwater do colours disappear?

Red	4.6m
Orange	7.6m
Yellow	10.7m – 13.7m
Green	21.3m – 22.8m

# Why choose mosaics from Designworks Tiles?

Jointpoint® mosaics are exclusive to us and provide the following advantages;

**No mesh to fail.** The patented 'no mesh backing' Jointpoint® system offers up to 95% of the surface area available for adhesive application – resulting in a stronger bond and superior grip

**TCNA ANSI A137.2-2012 approved.** Thermal Shock Resistance of Glass Tile

**European Quality.** Designed and manufactured in Europe to the highest standards

**Personalised Print.** Bespoke digital printing is available for unique creations

**100% Recycled Glass.** 'ISO 14021 Product Environmental Certified' recycled glass. We just add the colours and the jointing system

**Foot Friendly.** With a gentle pillowed edge and our non-abrasive Safe Step® slip resistant options available, comfort is key! The soft edges also allow the mosaic sheets to easily follow curves

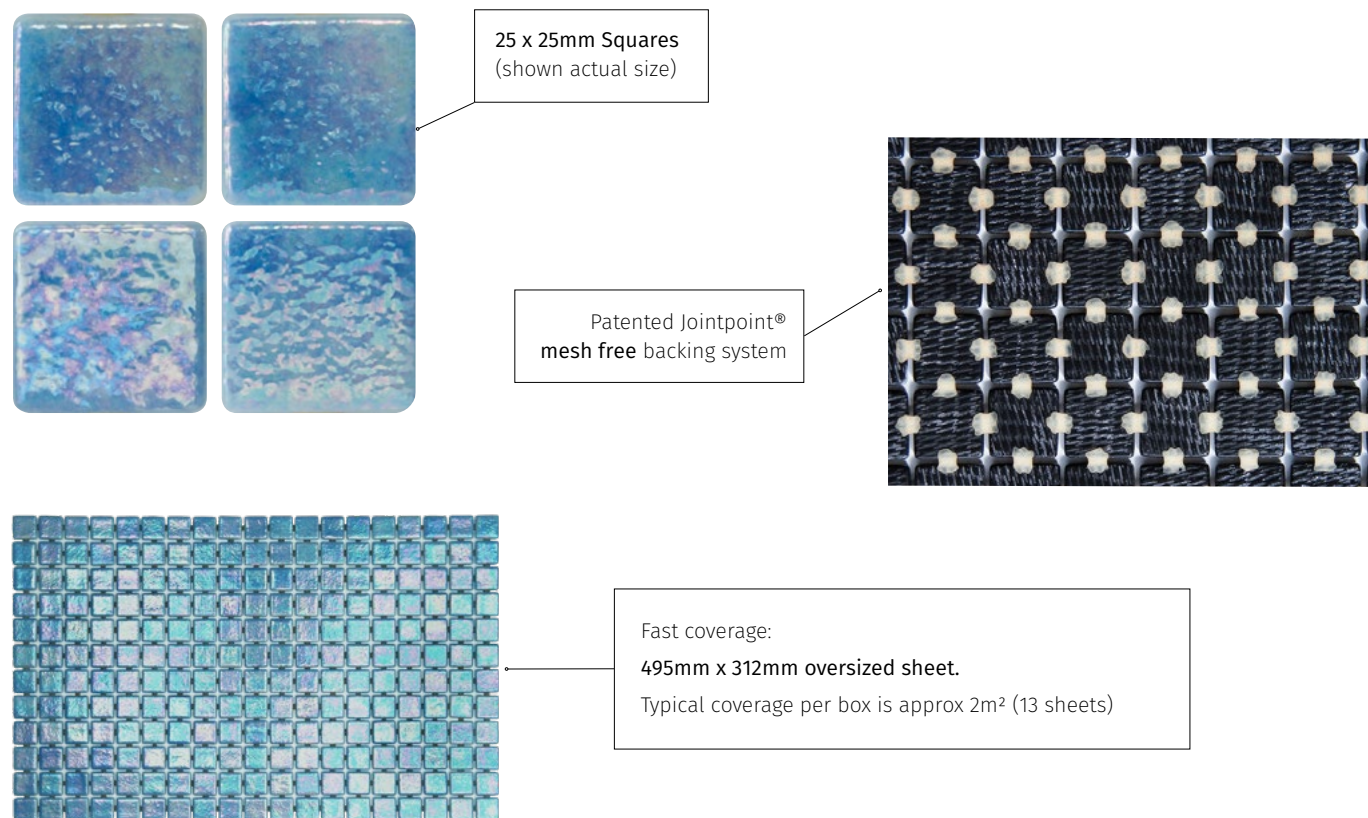

**Perfectly Co-ordinated.** We offer matching internal and external pieces for corners and step edges

**Waterline Ready.** Beautiful and easy to clean, our mosaics are a practical option

**25% Faster to Install.** Easy to handle, manipulate and cut; our mosaic sheets cover fast due to a 495mm x 312mm oversized format.

**Waterline Ready.** Beautiful and easy to clean, our mosaics are a practical option

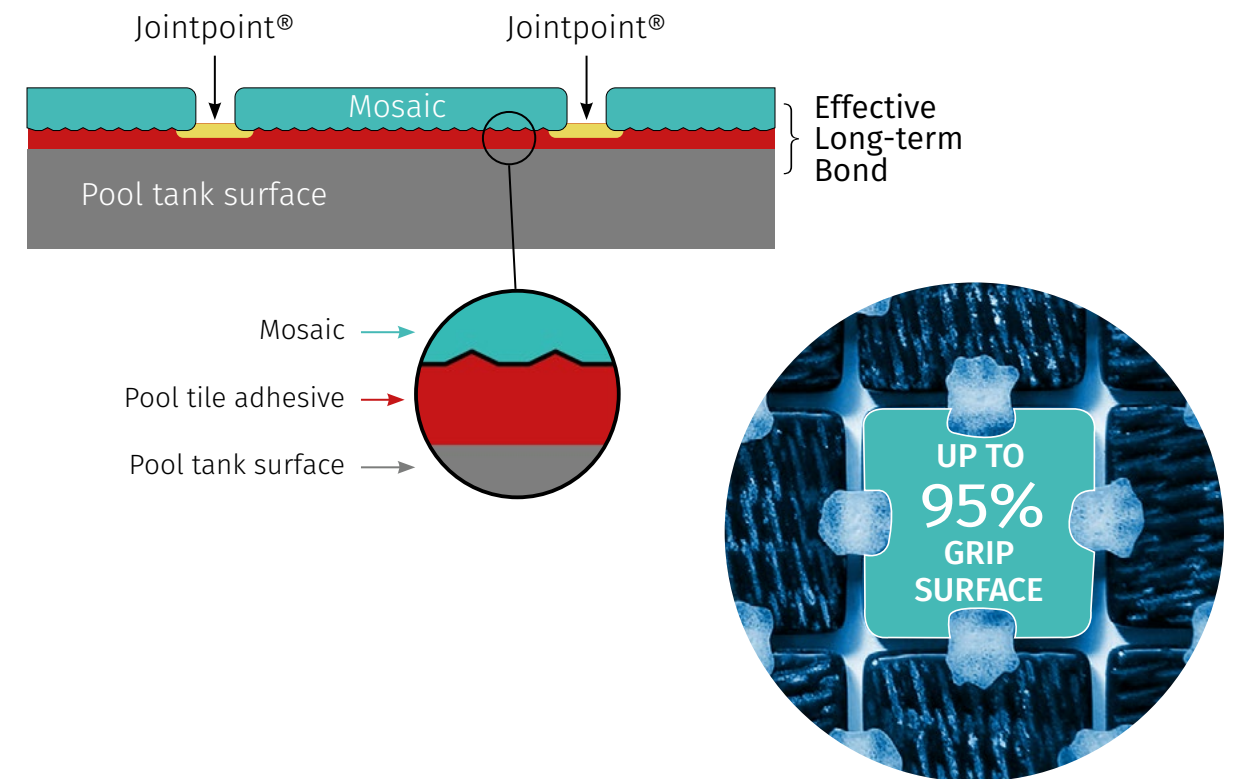

**Stable in all conditions.** Jointpoint® does not expand or contract like mesh or paper backed systems

different by design

## Ultimate Pool Mosaics

With up to 95% of the mosaic sheet's 'grip surface' available, there's nothing to come between the tiles and the tile adhesive. Better contact and less complexity = greater adhesion. 

## Typical mesh-backed mosaics

Mesh and mesh-adhesives act as a barrier to proper bonding between the mosaics and the pool tank surface. Air pockets trapped around the mesh weaken grip and can allow water ingress.

# Corners & Coves

Featuring the same 'Safestep' slip-resistant finish as their matching mosaics, our range of Corners and Coves delivers a seamless finish for your pool.

Corners provide safe, smooth, foot-friendly edges and Coves create elegant, hygienic, internal corners. You can also use a contrasting tone to mark step edges for safety and for adding a design flourish.

## • Designworks Tiles strongly recommend the use of a premium installation system •

Featuring the same 'Safestep' slip-resistant finish as their matching mosaics, our range of Corners and Coves delivers a seamless finish for your pool.
